OBJECTIVE

A Software engineer looking for a innovative and challenging environment where I can excel my skills with maximum potential for the benefit for the organisation as well as my self.

WORK EXPERIENCE

GRAPPUS (July 2020 - Present)
Frontend Developer

- Build **scalable, pixel perfect, consumer-facing** apps using React, React Native.
- Translating designs and wireframes into reusable code.

Dhwani Rural Information System (June 2018 - July 2020)
Frontend Developer

- Lead the front-end development team for multiple projects.**
- Worked on multiple data incentive projects using technologies like React, Angular, React Native.
- Build reusable components to facilitate development across projects
- Implemented POC on various ideas and technologies like survey forms, chat bots, etc.

PROJECTS

Zalumni (React) (February 2021 - Present)

Studying abroad made simple

Meaningful connections & Engagement with alumni. Authentic information & Insights. Seamless hassle-free application

- Started project from scratch.
- Lead the frontend team for this project.
- Worked with tools/libraries like **Figma, Trello, next.js, react-query, Mix Panel**

Asteride (React Native) (August 2020 - January 2021)
<https://apps.apple.com/in/app/asteride/id1527740977>

An app designed exclusively for riders, by riders around the world.

Worked on various features and modules on the app.

Integrated **PubNub chat**.

Made sure that the app works consistently on both ios an Android platforms.

Tribal Swasthya. Tribal Health & Nutrition Portal (React) (June 2020 - July 2020)
<https://stgmota.dhwaniris.in/home>

Knowledge Management for Tribal Health and Nutrition

Worked on multi-level Heatmaps, charts(using leaflet.js and chart.js).

Implemented various pages and features.

Built around React ecosystem (**react, react-router, framer-motion**).

MForm Web App (React) (February 2020 - May 2021)

A tool just like **google forms** where the user can submit responses to multiple forms assigned to him/her.

Support for multiple types of questions types like select, checkbox, image, video, audio, nested forms, etc with complex restriction, validations, and skip logic.

Configurable theming.

Built around React ecosystem (**react, react-router, react-material-UI**).

City Finance (Angular) (July 2019 - May 2021)
<http://www.cityfinance.in/>

An initiative of **Ministry of Housing and Urban Affairs, Government of India**

Worked on the dashboard panel and data upload module of this project.

Used **chart.js, leaflet.js, angular material**, etc.
